### REMINDERS

- ◆ Property tax bills were due August 31st, 2018. 1.25% interest per month are added to overdue balances.
- ◆ By-Law No. 2004-013—Excerpt: 3. No person shall move snow within the road allowance from one side of the cleared portion of the road allowance intended for vehicular & pedestrian traffic to the other side of the road allowance. Please take this into consideration when clearing your snow this winter. Please also keep snow clear from mailboxes and post so flying snow from the plows do not damage them.
- ◆ The Community Christmas Tree (kindly donated by Sandy Cross and family) is still in need of ornaments. For those of you who haven't participated in the ornament donation last year and would like to do so this year, please drop off your ornament at the Municipal Office from 8:30am to 4pm (Monday – Friday) by Friday, November 30th. Our goal is to collect an ornament for each family in the community.

## NEWS RELEASE

For immediate release: November 1, 2018

### HEALTH UNIT LAUNCHES CAMPAIGN TO ENCOURAGE NEEDLE EXCHANGE

NORTH BAY, ON – This November, the North Bay Parry Sound District Health Unit (“Health Unit”) is launching Sharps Buy Back Month. During this initiative, the Health Unit will provide a \$5 gift card for every 100 used sharps (e.g. needles or syringes) brought to our North Bay location. One hundred sharps is the approximate equivalent to two small sharps containers (about 50 sharps in each), one large sharps container, or a similar puncture proof container (like a 2L pop bottle). Sharps Buy Back Month targets individuals who would benefit from using our needle exchange services.

“Sharps Buy Back Month is an initiative launched by the Health Unit to collect used sharps while teaching individuals about our needle exchange services and how to pick up sharps safely,” says Auburn Larose, community health promoter. “We hope this also encourages people who have not yet visited our new location to come to 345 Oak Street West and check out what the Health Unit has to offer.”

If a sharp is found in the community, follow these instructions to pick it up safely:

- Do not walk while holding the sharp object
- Bring a puncture-proof, hard-sided, leak-proof container with a lid, such as a pickle jar or bleach container, to the area where the sharp was found
- Do not recap, bend, break the needle or manipulate it by hand in any way
- Place the object in the container. Use tongs if available. If tongs are not available pick up the needle/sharp from the blunt end and secure the lid
- Wash hands thoroughly with soap and water
- Label the container “hazardous waste” and bring to the Health Unit for proper disposal

Though the incentive campaign is only running through November, the Health Unit provides needle exchange services year round. The needle exchange program is part of the Health Unit’s harm reduction programming, which recognizes that a certain percentage of the population will use drugs; however, the goal is to reduce the harm that might result from drug use. Those who use drugs are at risk of transmitting HIV, hepatitis and other blood borne infections. Needle exchange services are proven to reduce the spread of infection without increasing intravenous drug use.

In addition to a needle exchange program, the Health Unit also offers naloxone, safer inhalation kits, safer crystal meth kits, and a variety of other health services like free dental care for eligible adults and children, free or low-cost birth control options, and Hepatitis C, HIV, and STI testing.

# IS YOUR WOOD STOVE SAFE?

Improperly installed and maintained wood stoves and fireplaces can lead to dangerous conditions that put you, your family, and neighbours at risk.

## FOLLOW THE RULES

When purchasing a new wood stove or fireplace insert, look for the mark of an accredited certification agency that ensures the product has been tested and meets established safety standards.

Check with your local building department and obtain any necessary permits prior to installing a wood stove, fireplace insert, or chimney. Always follow the manufacturer's installation instructions.

The Ontario Fire Code requires homeowners ensure their home heating appliances and chimneys are safe. This requires periodic inspections and maintenance.

See the back of this card for more information about safe wood heating.

## Tips for maintaining your wood burning appliance

### INSPECT AND CLEAN YOUR CHIMNEY

Check your chimney and clear any obstructions at the start of the heating season, and make sure damper controls work properly to keep smoke and toxic gases from building up inside the home. Check chimneys and flue pipes often for creosote and soot build-up and clean to prevent a chimney fire. Your chimney may have problems you can't see. If in doubt, consult a WETT (Wood Energy Technical Training) certified chimney sweep.

### CAP IT OFF

Maintain an appropriate chimney cap on top of your chimney to protect against damage from rain or snow. Spark screens should be inspected regularly to make sure smoke can vent properly.

### CHECK STOVE PIPES AND CONNECTIONS

Ensure all joints in flue pipes are securely fastened with at least 3 screws. Where flue pipes are joined together, the small (crimped) end should point toward the appliance.

### PROTECT FLOORS AND WALLS FROM HEAT AND SPARKS

Keep combustible materials a safe distance away from

wood stoves and fireplaces. Always use a properly fitting screen for your fireplace. Consult a WETT certified chimney sweep if walls get too hot.

### BURN DRY WOOD

Burn properly dried, well-seasoned wood to reduce the risk of excessive creosote build-up from inefficient burning or smouldering fires. Store wood outdoors, stacked in an open area or shed away from the house or deck to provide good airflow that will assist drying.

### REMOVE ASHES SAFELY

Allow ashes to cool fully before cleaning them from your fireplace or wood stove. Use only metal, non-combustible containers to remove ashes from the appliance. Take them outside immediately and store well away from buildings on a non-combustible surface.

### INSTALL CARBON MONOXIDE ALARMS

All homes with fuel-fired appliances should have a carbon monoxide (CO) alarm. Check with your fire department or municipal office regarding Building Code and municipal by-law requirements.

For more information, contact your local fire department.

The meeting was called to order at 7:00 p.m. by Mayor Brown

PECUNIARY/CONFLICT OF INTEREST:            None

PRESENTATIONS/DELEGATIONS:            None

This special meeting of Council was called to review/discuss/consider potential amendments to the current Zoning By-law (ZBL). It is anticipated that the Official Plan (OP) review by the Province is nearing completion. The ZBL amendments will be completed as soon as possible once the Provincial approval has been given to the OP. An Open House session will then be scheduled, possibly in early December or January, to be held in the Calvin Community Centre. This Open House will allow for public review, questions, clarification and comment and the public will be notified in advance of the date and time.

Mayor Brown invited those present in the audience to participate in the discussion if there were topics that they wished to address or comment on. The two Main topics brought forward were about Sea Can use and Hobby Farms/Nutrient Units.

Topics of consideration suggested by the Planner for this special meeting where:

- Tiny Houses (300 sq. ft to 450 sq. ft)
- Cannabis
- Wind and Solar Farms
- Air BnB
- Sea Cans (storage containers)
- Hobby Farms

- Exception Lots in the Rural Zone (existing undersized lots and potential for residential builds)
- General Industrial (M1 Zone) and possibility to add definition for "Vehicle Towing Establishment"
