Attn: Public works and roads dept
Re: Vegetation Maintenance Program

I am writing to inform you that Hydro One is scheduled to complete vegetation maintenance on hydro one right-of-ways in your community in 2023.

Hydro One performs routine maintenance to ensure the safety and reliability of our power lines. This work is essential to prevent unnecessary service interruptions, allow easy and safe access for our crews to perform emergency repairs on the power lines and to keep the right-of-way safe for public use.

The work on the right-of-way in your community will include the removal of incompatible vegetation, and dead, diseased or hazardous trees. Vegetation that requires removal will be marked with orange paint/tape and the vegetation that requires trimming will be marked with yellow paint/tape. If trees are removed, all wood will be left on-site. In areas where there is a higher density of brush, mechanical equipment may be used. Tree's that require trimming will be given appropriate clearance from energized lines.

If you have any questions regarding the planned work, please contact John Lee at 705-471-2458 or by email at John.Lee@HydroOne.com.

Thank you for your co-operation as we complete this important work.

Sincerely,

John Lee
