Hi Cindy,

If there is room on the next agenda, and if everyone agrees, I would like to have a follow-up discussion on Mr. Cuff's presentation.

Some of the points I found interesting are;

- Establish CAO as soon as possible.
- Use RFD's with background, options, and recommendations in developing each policies .
- Focusing on results, reporting them to the public.
- develop a public engagement strategy.
- Videos?

That's all I have.

MUNICIPALITY OF CALVIN
2021CT52 REPORT TO COUNCIL

REPORT DATE: **September 28, 2021**
ORIGINATOR: **Cindy Pigeau – Clerk-Treasurer**
SUBJECT: **Amendment to Hall Rental and Equipment Policy**

RECOMMENDATION

Whereas the Province of Ontario has implemented the requirement for a Vaccine Passport for non-essential venues as of Wednesday, September 22, 2021;

And Whereas this would include the use of our Community Hall for events;

And Whereas the Municipality does not have the staff to man events that take place at the Community Hall and therefore it is required that the responsibility be passed on to the event coordinator;

Be It Therefore Resolved that Council requests the Clerk-Treasurer to make the suggested amendments to By-Law 2020-020 to include the requirements for the event coordinator to screen, maintain a contact tracing list and check proof of vaccination as well as identification for all participants of the event and provide this a copy of all required documentation to the Municipality at the end of the event.

BACKGROUND

On Wednesday, September 22, 2021 the province of Ontario implemented the Covid -19 Vaccine Passport System requiring people to show proof of vaccination for entry into thousands of non-essential venues across the province.

In addition to the already implemented requirement of screening participants to an event and maintaining a contact tracing event, all attendees of an event will now also be required to provide proof that they have received two doses of an approved vaccine at least two weeks before, along with identification that matches their vaccination document.

These requirements have been confirmed with the North Bay Parry Sound Health Unit on Wednesday, September 22, 2021 that this would apply to any events held at the Calvin Community Centre.

The Municipality does not have the staff to ensure that these requirements are being met but are still responsible for ensuring that they have been completed. When this question was posed to the Health Unit they indicated that it would be acceptable to pass the responsibility on to the event coordinator but that the Municipal would require the event coordinator to provide the Municipality with the appropriate documentation for their records. This would mean it would be the responsibility of the event coordinator to have someone to screen, maintain contact tracing records and now ensure that all event attendees provide proof that they have received two doses of an approved vaccine at least two weeks before, along with identification that matches their vaccination document.

It is therefore suggested that the following amendment be added to the Hall Rental and Equipment Policy:

In Schedules A, E, F and I insert a clause that states:

The Municipality of Calvin is not responsible for providing personal protective equipment in the event of a pandemic and will not be held responsible if Provincial and North Bay Parry Sound District Health Unit (NBPSDHU) regulations associated with a pandemic are not followed by the attendees of the event.

Further, it is the responsibility of the event coordinator to ensure that all attendees provide the appropriate screening, maintaining of contact tracing documentation and proof of vaccination that they

have received two doses of an approved vaccine at least two weeks before, along with identification that matches their vaccination document.

In Schedule C – the names of the screeners, contact tracers and vaccine passport checkers be listed.

In Schedule G – add to the Hall Checklist the requirement to provide the Municipality a copy of the documentation that the appropriate screening, contact tracing and checking of vaccination has been completed.

Respectfully submitted;
Cindy Pigeau
Clerk-Treasurer

Some General Requirements for Development Applications Where Ministry of Municipal Affairs is the Approval Authority

Planning Application Fees

Fees are required for permit(s) and certificate(s) of approval and set by individual permitting agencies. There is also an application processing fee for consents and other planning applications to be submitted to the Ministry of Municipal Affairs (a certified cheque or money order made out to the Minister of Finance) at the time of submission of the application.

Please see the attached Fee Schedule for more details.

Early Consultation

Prior to formally submitting an application, the applicant and/or agent(s) are strongly encouraged to contact staff of the regional Municipal Services Office (MSO) of the Ministry of Municipal Affairs (MMA) to discuss the development proposal. Early consultation is highly beneficial, as the applicant can review the proposal with ministry staff and discuss what supporting documents and information may be required.

Please contact your local Municipal Services Office (MSO) to discuss your proposed development. (Refer to Page 1 for office locations).

Consistency with the Provincial Policy Statement (PPS)

The Planning Act requires that decisions affecting planning matters "shall be consistent with" the PPS which supports a comprehensive, integrated and long-term approach to planning in Ontario, and recognizes linkages among policy areas. The PPS is intended to be read in its entirety and the relevant policies are to be applied to each situation.

For more information, visit the ministry's website: www.mah.gov.on.ca

Conformity to Official Plan

Assessment/review of a consent application is based on land use planning legislation, policies and principles and potential social, economic and environmental impacts. A major consideration is conformity to the official plan policies.

Applicants are advised to determine if the proposed development is in conformity with official plan policies by discussing the proposal with MMA and/or the relevant municipality/planning board.

Some 'Commonly Required' Permits and Approvals

Part 8 Permit/Certificate of Approval for Sewage System

Consents proposed on small, private sewage servicing systems, generating 10,000 or less litres of effluent per day on one lot, would require a Part 8 permit under the Building Code issued by either the local municipality, public health unit or area conservation authority where it exists (if there is no health unit). The municipality (through the health unit or conservation authority) administers Part 8 of the Building Code that sets out the standards for locating accepted kinds of sewage/septic systems on a lot.

Prior to issuing a permit, the health unit would inspect the property, may stake the septic system site and recommend to the planning approval authority whether a servicing options report and/or a hydrogeological report is required.

Consents proposed on larger sewage systems that generate more than 10,000 litres of effluent per day on one lot would require a Certificate of Approval from the Ministry of the Environment and Climate Change under the *Environmental Protection Act*.

Some larger private or communal sewage treatment systems are also subject to the *Environmental Assessment Act* (generally where there is a surface water discharge).

For more information on larger private or communal sewage treatment systems, contact the Ministry of the Environment and Climate Change.

Communal Systems

Communal septic and communal well systems would generally require a servicing options and a hydrogeological report based on assessment of the specific circumstances.

Communal septic systems generating effluent of more than 4,500 litres per day would need a servicing options and a hydrogeological report.

Communal well systems for non-residential development may need a hydrogeological report.

Where communal services are proposed (water and/or sewage), the applicant must confirm, through a signed letter of acceptance, that the municipality or other public body would assume ownership and maintenance of these systems.

Entrance Permits

Any consent application that is proposed in close proximity to a provincial highway or has the potential to impact upon a provincial highway, would require an entrance permit from the Ministry of Transportation issued under the *Public Transportation and Highway Improvement Act*.

Contact your local Ministry of Transportation office to obtain information on permit requirements.

Record of Site Condition (RSC) for Contaminated Sites

Proposals for sensitive land uses on sites with potential soil contamination would require the completion of an environmental site assessment by a qualified person to determine the extent of contamination and to recommend actions for site remediation.

A change in activity regardless of the zoning could also trigger the need for an RSC as applicable law under the Building Code. An RSC is required when changing from industrial, commercial or community use to a more sensitive land use, such as residences or schools.

For more information on contaminated sites, refer to Ontario Regulation 153/04 (Records of Site Condition - Part XV.1) made under the *Environmental Protection Act*; and Ontario Brownfields website at www.ontario.ca/brownfields; or contact your local Ministry of the Environment and Climate Change (MOECC) office.

Permit for Alteration to Shoreline

If a proposed severance has potential to impact natural heritage areas or alteration to a shoreline, a permit would be required prior to any site alteration(s) or erecting of structures. Permits would be required from a local conservation authority or the Ministry of Natural Resources and Forestry (MNR). Applicants are advised to discuss their proposal with the Ministry of Municipal Affairs or the municipality/planning board. You may be directed to contact your local area conservation authority or the MNR office prior to making a formal application under the *Planning Act*.

Permit to Take Water

Section 34 of the *Ontario Water Resources Act* (OWRA) provides that "no person shall take more than a total of 50,000 litres of water in a day" for wells or surface water supply without a permit issued by a director of the Ministry of the Environment and Climate Change (MOECC).

Crown Lands

Certain areas of Crown lands are identified by the MNR as being of special interests, such as lake access points.

Consult your local regional Municipal Services Office as the first point of contact for assistance in dealing with planning issues relating to proposals requiring the acquisition or use of Crown lands.

For Contact the MNR District Office regarding the actual acquisition or use of Crown land.
